

## Contractors Speak Up

*Jim Kimball with American Specialities Tile & Marble, on the Columbia Mall Project in Columbia, S.C. - "The Combi 1000 cut down tons of blue stone on this projet and made me as much money as any tool I've ever owned".*

### Quality

The 3 h.p. 220V motor mated to the serpentine belt delivers plenty of power to the 14" blade - cut all day long with no loss of power. **GUARANTEED!**

### Performance

The stainless steel cutting surface and jig welded frame are tough, 24" x 24" pavers, bring 'em on! 4" thick precast pieces, no problem! Cutting marble and granite to be set with virtually no grout line, consider it done!

### Accuracy

With 40 inches of cutting length, and accuracy to 1/32", the **COMBI 1000** delivers the performance required by the most demanding installation. **GUARANTEED!**

### Reliability

The water pan is made with ABS plastic, it won't crack, **GUARANTEED!**

## COMBI 1000 14" Quick Specs

Blade Diameter	14"
Blade Shaft Diameter	1"
Max cutting length (w/plunge cut)	36" (40")
Max cutting depth 90 /45 degrees	4 3/4" / 2 1/3"
Motor Rating	1.5 h.p./110v/15amp or 3
Motor speed / Blade speed	2,800 / 2,250 r.p.m.
Cutting table dimensions	48" x 20"
Weight (crated)	270 lbs. (300 lbs.)
Water pan capacity	7.5 gals.
Noise level	78 db(A)
OPERATING DIMENSIONS	
Length	63" (66")
Height	34" (36")
Width	53" (38")
