

THE TOUCHDOWN 10"

Tile, Stone and Paver Saw

Win Big, the **TOUCHDOWN 10"** cuts it all perfectly! Marble, granite, tile, pavers, brick n' block - cut them all accurately and fast, day after day! The cutting tray is stable and strong, load it up with the heaviest materials, no problem.

Rental Shops Speak Up

The TD 10 is a great saw. The intelligent design and smooth operation make them easy to rent. Customers love them. We won't carry any other brand of Masonry and Tile Saws.
— Bruce Carothers, Owner, Bay Country Rental, Reisterstown, Maryland

Tips for Sawing

WD-40 is great stuff! You can safely spray it all over your saw. It is great to clean and lubricate rollers, travel bars, and pivot points.

Toughness

The cutting table is strong and straight... make accurate cuts pass after pass... **GUARANTEED!**

Accuracy

The protractor is a full sized stainless steel constructed guide, the cam actuated locking mechanism keeps the protractor in place at all times.

Versatility

Plunge cuts are smooth and precise as the cutting head pivots on sealed roller bearings.

Reliability

The serpentine belt drive is reliable and maintenance free.

Versatility

The single arm motor support allows the passage of large irregular pieces.

Stand Included

The stand is like the saw, very light and very stable. The feet are rubber so the stand won't slip on or scratch the floor.

TOUCHDOWN 10"

Quick Specs

Blade diameter	10"
Blade shaft diameter	5/8"
Max. cutting length (w/plunge cut)	18" (21")
Maximum cutting depth 90/45 degrees	2-1/2" / 1-1/4"
Motor rating	1.5 h.p. 110v, 15 amp
Blade speed	2,800 r.p.m.
Weight (boxed)	95 lbs. (110 lbs. includes stand)
Water pan capacity	10 gal.
Water pump flow	3 g.p.m.
Noise level	78 db(A) It's real quiet!

OPERATING DIMENSIONS (boxed)

Length	41" (43")
Width	25" (26")
Height	22" (24")
